

STUDENT RELEASE FORM: General Photography and Videography

For Elemental Music Internal Use and External Publicity Use

During the season, students are occasionally photographed or video recorded during Elemental Music events, such as rehearsals and performances. These images and videos are primarily used for publicity for the organization, such as in our newsletters, recruitment materials, website and social media, and for grant reporting purposes.

This release allows your child to be recorded and for Elemental Music to use and circulate these images and recordings.

I agree to allow my child to be photographed or recorded by Elemental Music staff and representatives approved by Elemental Music.

I understand that my child's name will never be used without my expressed permission.
